MARGIN CALL

The **Margin Call Report** provides real-time tracking of client balance changes, highlighting accounts that require immediate attention. It enables brokers to quickly identify clients facing margin calls, allowing them to offer timely solutions that prevent client losses and help maximize profits.

ABUSE DETECTION REPORTS

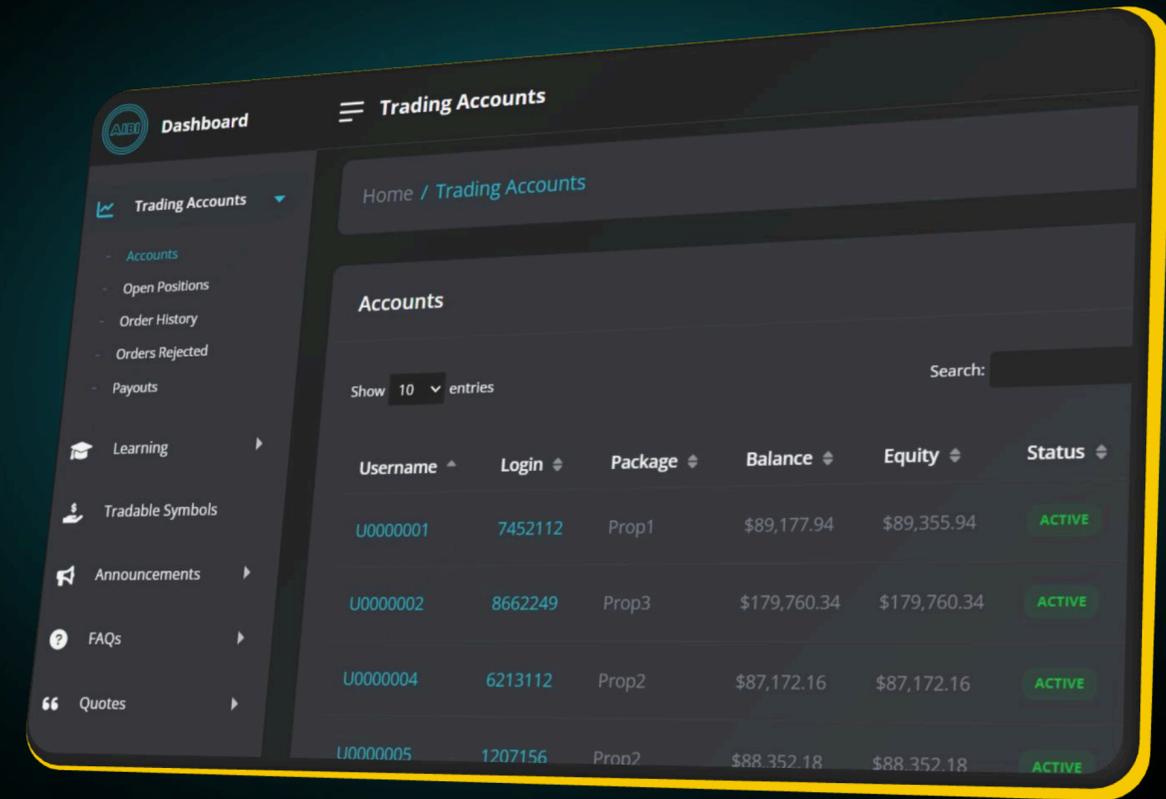

The **Scalper Abuse Report** automatically detects trades with unusually high profit or loss per second, while the **Ambiguous Abuse Report** flags unusual profit distributions. The **Bonus Abuse Report** detects fraudulent trading patterns linked to bonus exploitation.

CLIENT DASHBOARD

The [Client Dashboard](#) provides brokers with a powerful tool to manage client relationships. It offers integrated customer support for quick issue resolution, real-time tracking of client activity, and access to educational resources.

Clients can view their trading performance, receive personalized recommendations, and stay informed with real-time notifications. This all-in-one solution enhances client satisfaction, boosts retention, and streamlines your client management processes.

The Client Dashboard is fully white-labeled allowing you to use your logo and brand colors.

FROM PRE-LAUNCH TO **\$3M+** MONTHLY REVENUE

Challenge:

A proprietary firm required help in launching their business.

Our Solutions:

- Set up the trading platform, CRM, reporting systems, and AI analytics.
- Became their strategic partner, supporting internal operations and team workflows.

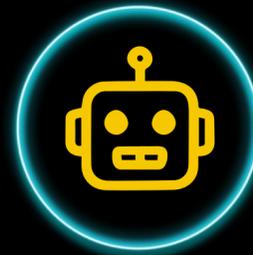

The Result:

- Reached **\$3M+** monthly revenue in just **2 years**
- Helped draft operational documentation
- Returned to us to launch a second brand

We don't just provide software — **we embed ourselves in your growth**, from foundations to scale.

SUPPORTING RISK TEAMS AGAINST ABUSIVE TRADING

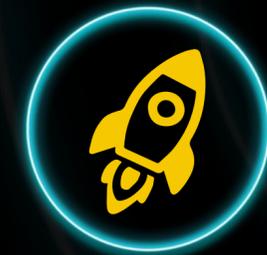

Challenge:

Multiple brokers with in-house risk teams needed help detecting abusive behavior that was quietly hurting their profits.

Our Solutions:

- Partnered directly with risk and dealing desks
- Analyzed complex abuse patterns using historical and live data
- Built custom abuse-detection tools based on client input
- Integrated tools into the platform for wider use

The Result:

- Faster, more confident decisions
- **Prevented up to \$300,000 in annual losses**

When clients face new risks, we don't just observe — we build. **Together.**

WHEN TRUST MEANS SAYING “**NO**”

Challenge:

One of the largest brokers wanted real-time predictions of trade profitability.

Our Solutions:

- Highlighted our strength in AI-driven behavioral prediction to help the client anticipate trader actions.
- Shared tailored, automated operational insights, including real-time alerts and opportunity detection.
- Connected the client with a trusted partner to fulfill additional needs — choosing long-term value over short-term gains.

The Result:

- Maintained transparency and credibility
- Broker later engaged with us on **risk automation solutions**
- **Saved 1000+ hours/year of internal analysis time by using our behavioral insights**

We don't overpromise. We solve the right problems — even if it means saying no.

BOOSTING SALES WITH SMARTER LEAD FILTERING

Challenge:

A financial service firm with lead drop-off issues was wasting a lot of resources on unqualified leads

Our Solutions:

- Integrated an AI-driven lead filtering model
- Collaborated with a chatbot UX specialist for better engagement
- Built a combined system to prioritize only the most promising leads

The Result:

- Improved the lead-to-sales conversion rate by **+38%**
- Saved **60+ hours/month** on manual qualification efforts

Smart automation doesn't replace human touch — **it amplifies it** where it matters most.
